Skopenow: A comprehensive open-source intelligence platform

Rob Douglas

CEO and Founder

Scopenow, Inc.

Rob Douglas (rob@skopenow.com) is the CEO and Co-Founder of Skopenow, Inc. His mission is to modernize investigations by providing scalable open-source intelligence to all industries. A thought leader and frequent speaker at industry events, Rob's day-to-day includes partnering closely with product, sales, and marketing to drive innovation and growth. He holds a Bachelor of Engineering degree from Vanderbilt University.

Skopenow provides an industry leading comprehensive open-source intelligence platform. The company has over 1,500 customers, including 20% of the Fortune 500 as well as numerous large government and law enforcement agencies. Skopenow uses AI to process millions of publicly available data points to generate actionable insights, delivered in a streamlined, fully integrated suite of products. Founded in 2016 and headquartered in New York City, Skopenow is a venture-backed technology company with a distributed team across the globe. For more information, please visit www.skopenow.com.
